Conclusion:-

We demand more inclusive schools like ours in today's world. In today's rapidly developing world, one cannot envision the change, helping them obtain excellent academic grades alone is not enough, important though it is! Equipping them with the values that our diverse dynamic and constantly evolving society needs to function is the greater challenge, to create good human beings, persons who have integrity, understanding and compassion.

Great indeed is the words of God the Almighty. I conclude on a note of gratitude to the provincial. Sr. Shruti, Sr. Joan the manager, Sr. Irene the executive director and all the sisters present here for your constant support and encouragement for the development of this inclusive school.

"The capacity to learn is a gift, the ability to learn is a skill, and the willingness to learn is a choice." -
Brian Herbert.
